Adam Coscia

Assistant Professor, School of Computing, Stevens Institute of Technology
acoscia@stevens.edu ● https://adamcoscia.com ● (201) 216-5652 ● Gateway South - GS 349

EDUCATION

Ph.D. in Human-Centered Computing — Atlanta, GA
Georgia Institute of Technology — May 2026
Dissertation: Detecting and Mitigating Pedagogical Risks in Large Language Models with Visual Analytics
Committee: Dr. Alex Endert, Dr. Duen Horng (Polo) Chau, Dr. Cindy Bearfield-Xiong, Dr. Yalong Yang, Dr. Scott Crossley

B.S. in Physics — Hoboken, NJ
Stevens Institute of Technology — May 2020
Minors: Mathematics, Computer Science, *GPA:* 3.98/4.00, *Achievements:* Pinnacle Scholars, First in Class (Physics)

EMPLOYMENT

Stevens Institute of Technology — Hoboken, NJ
Assistant Professor (Tenture-Track) ● School of Computing — 2026—present
Building visual analytics, human-centered artificial intelligence, and data science tools to solve pressing human-centered, data-driven problems.

Georgia Institute of Technology — Atlanta, GA
Graduate Research Assistant ● School of Interactive Computing ● Advisor: Alex Endert — 2020—2026
Member of the Visual Analytics Lab developing interactive visual analytics tools that help people make sense of data by combining information visualization, machine learning, and human-computer interaction.

MIT Lincoln Laboratory — Lexington, MA
Artificial Intelligence Research Lead ● *Artificial Intelligence Group* — Summer 2025
Advisors: **Ho Chit Siu, Rohan Paleja**
Developing novel visual analytics interfaces that enable human-in-the-loop decision-making and guidance in human-machine teaming scenarios.

Adobe Research — San Jose, CA
Machine Learning Research Lead ● *AI Experiences Lab* — Summer 2024
Advisors: **Shunan Guo, Eunyee Koh**
Built a novel chat interface with large language models (LLMs) to improve sensemaking of conversational LLM responses for everyday users using LLM-powered Adobe products.

NASA Jet Propulsion Laboratory (JPL) — Pasadena, CA
Machine Learning Research Lead ● *Human-Interfaces Group* — Summer 2023
Advisors: **Scott Davidoff, Tiago Vaquero**
Developed automated science planning capabilities for planetary missions to support multi-instrument and team-driven science using a novel demonstration paradigm.

NASA Jet Propulsion Laboratory (JPL) — Pasadena, CA
Computer Science Lead ● *Data to Discovery Program* — Summer 2021
Advisors: **Scott Davidoff, Santiago Lombeyda, Hillary Mushkin, Maggie Hendrie**
Built interactive data visualization combining linked 2D maps and 3D visualizations of taxa and geochemical values in sediment cores collected from the sea floor.

New York Life Insurance Company — New York, NY

Machine Learning / Operations Intern ● *Center for Data Science and Artificial Intelligence* — Summer 2020

Supervisor: **Paul Janis**

Engineered multiple feature extraction pipelines interfaced by Domino platform and integrated with existing Hadoop infrastructure. Produced model monitoring metric reports for stakeholders and data science team.

New York Life Insurance Company — New York, NY

Data Platform Engineering Intern ● *Center for Data Science and Analytics* — Summer 2019

Supervisor: **Paul Janis**

Built various scalable programs and data-handling procedures for multiple teams to leverage complex, low-level data lake tools with efficient, cost-effective, and easy-to-use interfaces.

Stevens Institute of Technology — Hoboken, NJ

Undergraduate Research Assistant ● *School of Information Systems and Architecture* — 2018—2020

Advisors: **Aron Lindberg, Amir Gandomi**

Developed statistical model in Python for connecting evolutionary trajectories of digital artifacts to performance outcomes in online communities.

Katholieke Universiteit Leuven — Leuven, Belgium

Visiting Research Scholar ● *Department of Physics and Astronomy* — Summer 2017

Advisors: **Lino da Costa Pereira, Tiago Abel de Lemos Lima**

Built data visualization interface in Python for managing simulations of ion channeling in single crystals, to be used in ion beam analysis of topological materials.

AWARDS and HONORS

Best Paper, Honorable Mention, VAST Challenge @ IEEE VIS 2026 — 2026

For *"**AgentK**: Investigation of Multi-Agent LLM Dialogue via Semantic Bundling of Knowledge Graphs"*

Inductee, Sigma Xi Scientific Research Honor Society — 2025

Inducted as a lifetime member

Best Poster Award, CRIDC 2025 — 2025

For *"**VisPile**: Incorporating Knowledge Graphs and Large Language Models into Visual Text Analysis Tools"*

Foley Scholar Award Finalist, Georgia Tech — 2024

Awarded to top graduate students shaping the future of how people interact with and value technology.

Best Poster Award, CRIDC 2023 — 2023

For *"**KnowledgeVIS**: Visualizing What Language Models Have Learned"*

Best Poster Award, CRIDC 2021 — 2021

For "***Lumos**: Increasing Awareness of Biases during Visual Data Analysis*"

President's Fellowship, Georgia Tech — 2020

Four-year semesterly stipend award; selected upon admission from top 10% of applicant pool.

Alfred M. Mayer Prize, Stevens Institute of Technology — 2020

Awarded to senior ranked first in all physics courses taken during undergraduate career.

Inductee, Sigma Pi Sigma Physics Honor Society — 2019

Inducted as a lifetime member by the American Institute of Physics

Distinguished Teaching Assistant, Stevens Institute of Technology — 2018

Awarded to student faculty member nominated for creating outstanding classroom environment.

Presidential Scholarship, Stevens Institute of Technology — 2016

Four-year, half-tuition award; selected for academic excellence in high school.

   Arpit Narechania, Adam Coscia, Emily Wall, and Alex Endert
   *Career, Research, and Innovation Development Conference (**CRIDC**), Atlanta, GA, USA, 2021*
   Best Poster Award (top 5%)
6. **Correlating Long-Term Innovation with Success in Career Progression**
   Adam Coscia and Aron Lindberg
   Business Intelligence & Analytics (BI&A) Corporate Networking Event, Hoboken, NJ, USA, 2018

INVITED TALKS and DEMOS

Collaborative Sensemaking with AI in Visual Analytics

Montclair State University November 2026
Boston University November 2026
Emory University April 2026
Brown Visual Computing Seminar, *Brown University* October 2025
University of Massachusetts Boston October 2025
University of Massachusetts Amherst October 2025
Johns Hopkins University October 2025
MIT Lincoln Laboratory July 2025

Detecting and Mitigating Pedagogical Risks in LLMs with Visual Analytics

Tufts University July 2025
Institute for People and Technology (IPAT), *Georgia Institute of Technology* April 2025
NSF AI Institute AI-ALOE Showcase, *Georgia Institute of Technology* April 2024

KnowledgeVIS: Interpreting Language Models by Comparing Fill-in-the-Blank Prompts

Invited Journal Paper Talk, *IEEE Visualization Conference (VIS)* October 2024

Preliminary Guidelines for Combining Data Integration and Visual Data Analysis

Invited Journal Paper Talk, *IEEE Visualization Conference (VIS)* October 2024

Visualizing What Large Language Models Have Learned

GVU Demo Day, *Georgia Institute of Technology* March 2023

GRANTS and FUNDING

Agentic Visual Data Analysis: Knowledge Graph Synthesis using LLMs 2026

Laboratory for Analytic Sciences, *North Carolina State University*
Co-PI: **Alex Endert**
One-year funding (full tuition + graduate stipend)

Enabling Continuous Analytic Dialogues in Visual Analytics with LLMs and Knowledge Graphs 2025

Laboratory for Analytic Sciences, *North Carolina State University*
Co-PI: **Alex Endert**
One-year funding (full tuition + graduate stipend)

Incorporating Knowledge Graphs and Large Language Models into Visual Text Analysis Tools 2024

Laboratory for Analytic Sciences, *North Carolina State University*
Co-PI: **Alex Endert**
One-year funding (full tuition + graduate stipend)

Correlating Long-Term Innovation with Success in Career Progression 2018

Pinnacle Scholar Summer Institutional Research Program, *Stevens Institute of Technology*
Co-PI: **Aron Lindberg**
Funded $5000 for research expenses and living stipend

Managing Simulations of Ion Channeling in Single Crystals 2017

International Summer Abroad Internship Program, *Katholieke Universiteit Leuven*
Co-PI: **Lino da Costa Pereira**
Funded €3000 from Katholieke Universiteit Leuven and $5000 from Stevens Institute of Technology

TEACHING

Georgia Institute of Technology — Atlanta, GA
Graduate Teaching Assistant ● *CS 6730: Data Visualization Principles* — Fall 2022, Fall 2025
Instructor: **Alex Endert**
Assisted professor with lectures, grading, team projects; held office hours for student support.

Stevens Institute of Technology — Hoboken, NJ
Course Assistant ● *PEP 112S: Honors Electricity & Magnetism* — semesterly, 2018—2020
Instructor: **Christopher Search**
Assisted professor with grading, reviews, worksheets, and testing material preparation.

Stevens Institute of Technology — Hoboken, NJ
Course Assistant ● *PEP 112: Electricity & Magnetism* — semesterly, 2018—2020
Instructor: **Robert Pastore**
Ran 3-hour exam reviews for an average class size of 200 students.

Stevens Institute of Technology — Hoboken, NJ
Teaching Assistant ● *CS 105: Intro to Scientific Computing* — semesterly, 2017—2020
Instructor: **Dimitrios Damopoulos**
Taught 15-25 students in weekly labs on CS concepts using MATLAB; helped develop course materials.

ADVISING and MENTORSHIP

Ph.D. – Research Project Advisor

Zeyu (Abigail) Hua — 2026
Ph.D. in Computer Science, *Georgia Institute of Technology*
Developing new LLM-powered algorithms for analyzing and visualizing knowledge graphs.

Sujata Duwal — 2025—2026
Ph.D. in Human-Centered Computing, *Georgia Institute of Technology*
Studying trust in decision-making when visualizing LLMs used in education.

Master's – Research Project Advisor

Jennifer Chandran — 2025
M.S. in Human-Computer Interaction, *Georgia Institute of Technology*
Creating a new LLM-augmented pipeline that automatically transforms document sets for data analysis.

Ben Klassen — 2024—2025
M.S. in Data Science & Analytics, *Georgia Institute of Technology*
Developed new data science tools that leverage LLMs to enhance intelligence in classrooms and sports analytics.

Sean Ru — 2024
M.S. in Computer Science, *Georgia Institute of Technology*
Created LLM-based algorithms that embed data visualizations for improved searchability.

Bachelors – Research Project Advisor

Meng Lincoln Ngy Tang 2026
B.S. in Computer Science, *Stevens Institute of Technology*
Developing visualization techniques to safely deploy AI for trustworthy financial operations.

PROGRAMS and OUTREACH

Georgia Institute of Technology Atlanta, GA
Mentor ● *IC Buddies Mentorship Program* 2025—2026
Paired one-on-one with a graduate student, helping them adjust to grad school. Introduced them to faculty connections, discussed graduate research opportunities, and provided guidance on time/workload management.

Encouraging Women Across All Borders (EWAAB) New York, NY
Mentor ● *Beyond Mentorship Program* 2022—2023
Connected monthly one-on-one with students to discuss professional topics ranging from general professional advice, to applying for job opportunities, to discovering new fields of study.

Stevens Institute of Technology Hoboken, NJ
Mentor ● *Pinnacle Scholar Peer Advisor Program* 2017—2019
Mentored 4-6 honors freshman each academic year representing different majors. Provided guidance on internships, classes, international experiences, campus resources. Took students on excursions into Hoboken.
